

PROGRAM SUPPORT CENTER Contract Holder

The Program Support Center (PSC) IDIQ contract is a Government-wide acquisition contract administered by the U.S. Department of Health and Human Services (HHS) Program Support Center to provide social science-related services

Solutions in Federal Health

National Government Services is able to leverage the right mix of people, processes and tools to deliver optimum performance to help fulfill the mission of HHS and other Federal agencies who acquire services through the PSC contract vehicle.

Through the PSC IDIQ, National Government Services, along with a carefully vetted team of highly qualified organizations and thought leaders will offer PSC clients the best industry practices and proven capabilities derived from decades of delivering solutions and expertise to support and evolve large-scale health programs from the Government and commercial health sectors. Collectively our mission is to deliver forward thinking, cost-effective health solutions to solve the agencies' challenges and improve Federal healthcare.

Focus Areas

The National Government Services team is assembled to specifically respond to health related services task orders. Our integrated team is scalable with cross-functional skill sets to quickly ramp up to engage simultaneous projects in the following areas:

- | | |
|-----------------------------------|--|
| Program Assessments | Translation and Interpretation |
| Data Analysis | Evaluation Design |
| Auxiliary Support Services | Evaluations and Data Collection |
| Performance Measurement | Distribution of Publications |
| Policy Assessments | Production |
| Technical Expertise | |

Our Team

National Government Services is committed to providing PSC with the most skilled and knowledgeable professionals. The team shares our vision of being a trusted partner to the federal government. These elite organizations, many of which are from the small business community, bring a blend of experience and strong performance histories in the technical, scientific, academic, research and policy and program expertise areas to ensure responsive, high quality delivery to all PSC customers.
